About Us

At V-MARC India Limited, we are built on a strong foundation of quality, safety, and innovation. Recognized as one of India's trusted wire and cable manufacturers, we offer a wide range of electrical solutions, including wires and cables, switchgear, switches, and fans. With a presence across 24+ states, our robust distribution network enables us to deliver reliable products to homes, industries, and infrastructure projects across the country.

Our Growth Journey

Since establishing our manufacturing facility in Haridwar in 2006 under the leadership of Mr. Vikas Garg, V-MARC has steadily expanded its product portfolio. The launch of our IPO in 2021 marked a key milestone, reflecting our commitment to growth and excellence.

Innovation at the Core

We are among the few companies in India to adopt E-Beam Technology, enhancing the durability and safety of our cables. Our ULTRA SAFE 150 eB-HFFR wire is designed to withstand extreme conditions, offering superior protection and performance.

Growing Our Range

As part of our growth, V-MARC has expanded beyond wires and cables to offer a complete range of electrical products, including switches, switchgear, and fans—moving towards becoming a comprehensive electrical solutions provider.

The Switch You Touch 20 Times a Day Deserves to be Built Right

In a competitive market, V-Marc Switches stand apart, not just in price, but in the holistic value we deliver.

The V-Marc Advantage

Flame Retardant Material

Critical for Indian electrical environments where heat and load fluctuations are common.

BIS & ISI Compliant

Fully compliant with IS 3854 and IS 1293 standards.

Unmatched Value

V-Marc delivers certified, design-forward switches without the premium of imported alternatives.

Heavy Metal Contacts

Silver-alloy grade heavy contacts ensure minimal resistance, reduced arcing, and a lifespan measured in tens of thousands of operations.

Three Premium Finishes

Available in Classic White, Midnight Black, and Brushed Magnesium -- three finishes that match every interior palette.

Complete Range Coverage

From basic 6A one-way switches to 16A heavy-duty variants, from fan regulators and dimmers to USB chargers and RJ45 connectors. V-Marc's switch ecosystem covers every electrical touchpoint in a modern home or office.

Tool-Free Installation

Snap-fit modular design makes installation fast and clean.

Velo Plus Switches

The Velo Plus is V-Marc's flagship switch range, engineered for discerning homeowners and premium residential or commercial projects where aesthetics and reliability must coexist. Its high-gloss thermoplastic frame delivers a tactile confidence that matches spaces designed to impress.

6A Bell Push Switch with Neon 2 Module for combined functionality in one unit

Heavy silver-alloy metal contacts for superior conductivity and longevity

Available in 6A and 16A ratings, 1 Way, 2 Way, and Bell Push Switch variants

Neon indicator options for night-visibility in bedrooms, corridors, and stairways

Premium high-gloss flame-retardant thermoplastic body

Available in White, Black, and Magnesium finishes

BIS certified, compliant with IS 3854

Robust internal mechanism designed for 50,000+ switching cycles

Controllers & Connectors

The Controllers & Connectors range transforms a basic wiring system into an intelligent, user-responsive living environment. Whether adjusting mood lighting with a dimmer or ensuring high-speed data via an RJ45 port, V-Marc's modular accessories plug right into the same plate system.

Dimmers & Fan Regulators

Dimmer 450W 1M

Smooth light intensity control for ambient living and bedroom lighting.

Fan Regulator 4 Step 100W 1M

Four precise speed settings for every room condition.

Fan Regulator 5 Step 100W 2M

Extended two-module format for easier operation.

Connectors & Data Ports

TV Socket

Dedicated co-axial antenna connection point for clean AV setups

RJ11 with Shutter (Telephone)

Secure telephone line connection with dust protection

USB Charger 1M

Built-in USB charging; eliminates the need for adapter blocks

RJ45 CAT.6 Connector with Mounting

Gigabit Ethernet for home networks

Indicators, Starters & MCBs

Neon Indicator

Status light for panel and circuit identification

Blank Plate 1M

Covers unused module slots for a finished appearance

Foot Light 2M & 3M

Integrated corridor and staircase night lighting

Motor Starter Switch 25A & 32A

Single-phase motor protection for pumps

SP MCB

6A, 10A, 16A, 20A, 25A, 32A ratings for individual circuit protection

DP MCB: 20A, 25A, 32A

Double-pole protection for heavy appliances and main lines

Vexa Switches

The Vexa Switch series introduces a subtly sculpted profile ideal for modern apartments, boutique hotels, and commercial interiors where every detail is curated. The Vexa's refined body design sits flush against plates to create a seamless, uninterrupted wall finish.

Distinctively contoured body design

Flame-retardant thermoplastic material

Three finish options: White, Black, and Magnesium

Available variants - 6A 1 Way, 6A 2 Way, 6A Bell Push, 16A 1 Way

Heavy-duty metal contacts for consistent, arc-free switching performance

BIS certified, compliant with IS 3854 standards

Easy-clean surface

Sockets

V-Marc Safety Sockets are built on a philosophy of zero compromise. With extruded brass terminals and shutter-protected pin holes, V-Marc Sockets protect both your appliances and your family -- in every configuration from 6A household to 16A heavy-duty.

Extruded brass terminals

ISI-marked 6A 3-Pin Socket with shutter protection

6A 3-Pin Socket without shutter for professional installation environments

Available in White, Black, and Magnesium finishes

16/6A Twin Socket (Heavy Duty)

Anti-tracking thermoplastic body

13A International Socket

Compliant with IS 1293 and BIS safety norms

Velo Plates

A switch is only as elegant as its plate. The V-Marc Velo Cover & Grid Plate system is the architectural frame that pulls every wiring accessory into a cohesive wall feature. Precision-moulded in high-quality thermoplastic, Velo Plates fit V-Marc's entire switch and socket range.

1M to 18M module configurations

12M and 18M large-format plates

8M Square and 8M Horizontal options

Available in White, Black, and Magnesium finishes

Compatible with all V-Marc switches, sockets, and controllers

Scratch-resistant high-gloss surface

Precision grid alignment

Velo Wood Plates

V-Marc Velo Wood Plates are known for their warm, natural-texture finishes. Available in Classic Wood and Dark Wood grains, these plates bring a resort-like warmth to bedrooms, living spaces, hospitality interiors, and luxury homes.

Two premium wood-grain textures

High-fidelity texture finish

Full size range

Same precision grid fit as standard Velo Plates

Ideal for feature walls, hospitality projects, and luxury residential developments

Compatible with all V-Marc switches, sockets, and controller modules

Weather-resistant surface
